

When finding your way is essential...
3M lights the way for emergency and evacuation signage

3M™ Photoluminescent Film Series 6900

3M Photoluminescent Film Series 6900 is the ideal solution for emergency exits and directional signage in buildings, ships, ferries and railcars.

- Superior initial and retained luminosity
- Meets and/or exceeds:
 - ASTM 2072
 - NFPA 101
 - IMO A.752.18
 - OSHA 1910 Means of Egress
 - 2000 International Building Code
- High conformability
- Superior warranty for long-term durability
- Easy to install and clean
- Resists graffiti, chemicals and stains

3M *Innovation*

“It was dark inside and he could smell smoke, but he could just make out a luminescent stripe on the steps, and there was never any doubt in his mind about which way to go down.”

Newsweek, September 9, 2002

(Taken from a survivor’s account of the 2001 World Trade Center Attack.)

Application and Uses

- All surfaces that provide exits or directional signage for emergency and evacuation.
- Can be applied to walls, ceilings, doors and railings.

Photoluminescent Film Performance Characteristics

- High performance strontium aluminate luminous pigment
- Three times brighter than typical photoluminescent films
- Twice the retained luminosity of typical photoluminescent films; up to 7 hours
- 7-year interior warranty; 1-year exterior warranty
- Non-radioactive, no heavy metals used in production
- Available in rolls and sheets and is easily die cut

Photoluminescent signage provides positive guidance in “lights out” conditions.

Talk to your 3M Representative today.

As the leader in reflective sheeting and luminous film technology, 3M can meet your specific needs for emergency exit and directional signage. To learn more about 3M™ Photoluminescent Film, contact your 3M representative, call 800-533-1380, or visit us on the Web at www.3M.com/tss.
